INDEX TO VOLUME XVII

ACIDITY and hydrogen-ion concentration of frozen desserts, The influence of citric acid upon titratable 365
Acidity, and quality in cheddar cheese, A study of the relationship between hydrogen-ion concentration, titratable 33
Acidity in milk 281
Acid in milk and cream, Detection of lactic 759
Acid production of Streptococcus lactis, Rate of growth and 497
Air in dairy plants, Numbers of microorganisms falling from the 613
ALLEN, NAT N. The fat percentage of milk as affected by feeding fats to dairy cows 379
Alpha hydrate-anhydride systems of lactose 595
American Dairy Science Association:
Announcements 61, 121, 278, 339, 417, 757
By-laws 243
Members July 15, 1934 743
Proceedings of 29th annual meeting 575
Program of annual meeting 467
Analysis, fat test 717
Analysis for lactic acid 759
Analysis of dry skim milk, Standards and methods of 419
Analysis, x-ray 587
ANDERSON, G. C. (See Atkeson, F. W.) 249
ANSBACHER, S., FLANIGAN, G. E., and SUPPLEE, G. C. Certain foam producing substances of milk 723
ATKESON, F. W., WARREN, T. R., and ANDERSON, G. C. Water requirements of dairy calves 249

BACTERIA.
Escherichia coli 11, 799
Streptococcus fecalis 525
Streptococcus lactis 497, 525
Bacteria in the air 613
Bacterial flora of low count milk, Further studies of the effect of pasteurization on the 115
BECKER, R. B., NEAL, W. M., and SHEALY, A. L. Effect of calcium-deficient roughages upon milk yield and bone strength in cattle 1
BETHKE, R. M. (See Krauss, W. E.) 685
Birth-weight, gestation period, and sex ratio of Alaskan hybrid Holstein-Galloway calves 709
Breeding dairy cattle 93
Brom Thymol Blue reaction and the catalase content of freshly drawn milk, A comparison of the leucocyte count, the 75
BROWN, L. W., and PRICE, WALTER V. A study of the relationship between hydrogen-ion concentration, titratable acidity, and quality in cheddar cheese 33
Bull calves, Pedigree analysis as a basis of selecting 93
Butter and butterfat and the iodine number of the butterfat, The relation between the hardness of 543
Butter as a substrate for mold growth 397
Butterfat and the iodine number of the butterfat, The relation between the hardness of butter and 543
Butterfat records of cows possessing supernumeraries compared with cows having the normal number of teats, The 571
Butter, the detection of the Escherichia-Aerobacter group in 11
Butterfat to the churnability of cream, The relation of composition of 551
Butterfat yields of Jersey cows as affected by frequency of milking, Milk and 815

CALCIUM and phosphorus metabolism in calves 83
Calcium-deficient roughages upon milk yield and bone strength in cattle, Effect of 1
Calves, Birth-weight, gestation period, and sex ratio of Alaskan hybrid Holstein-Galloway 709
Calves, Water requirements of dairy 249
Catalase content of freshly drawn milk, A comparison of the leucocyte

count, the Brom Thymol Blue reaction and the 75
Catalase test of milk 281
Cattle, The occurrence of Polythelia in dairy 559
CAULFIELD, W. J., and RIDDELL, W. H. A study of some factors influencing the Hill curd test 791
CANNON, C. Y. (See Wilson, John L.) 331
CHANG, CHANG Y., PHILLIPS, PAUL H., and HART, E. B. The effect of feeding raw rock phosphate on the fluorine content of the organs and tissues of dairy cows 695
Cheese, Pimientos in processed 361
Cheese spreads 373
Chlorine content of milk 281
Chlorine sterilizers for dairy use, Studies of the technic to evaluate the efficiency of several 351
Churnability of cream, The relation of the composition of butterfat to the .. 551
Citric acid upon titratable acidity and hydrogen-ion concentration of frozen desserts, The influence of 365
CLARK, G. L. (See Tuckey, S. L.) 587
Coffee by cream treated in various ways, The color imparted to 651
Color imparted to coffee by cream treated in various ways, The 651
COMBS, W. B. (See Trelogan, H. C.) 675, 717
Composition of milk 771
COPELAND, LYNN. Milk and butterfat yields of Jersey cows as affected by frequency of milking 815
COPELAND, LYNN. Pedigree analysis as a basis of selecting bull calves 93
COULTER, S. T., and COMBS, W. B. The relation of the composition of butterfat to the churnability of cream 551
COULTER, S. T., and HILL, O. J. The relation between the hardness of butter and butterfat and the iodine number of the butterfat 543
Cow testing Associations, Freshening ages of purebred cows in 625
Cows as affected by frequency of milking, Milk and butterfat yields of Jersey 815
Cows, Lespedeza straw for dairy 671
Cows possessing supernumeraries compared with cows having the normal number of teats, The butterfat records of 571
Cows, The effect of feeding raw rock phosphate on the fluorine content of the organs and tissues of dairy 695
Cows, Water consumption of dairy 265
Cows, yearly production 737
Cream and their relation to churning, Substances adsorbed on the fat globules in 29
Cream, Detection of lactic acid in milk and 759
Cream, Fat rising in 675
Cream, Methods for testing frozen 717
Cream, Studies on whipping 307
Cream, The relation of the composition of butterfat to the churnability of 551
Cream treated in various ways, The color imparted to coffee by 651
Crystallization of lactose 501, 533, 587, 659, 701
Curd tension of milk, The influence of homogenization on the 519
Curd tension of milk, Influence of mastitis on the 257
Curd test, A study of some factors influencing the Hill 791

DAHLBERG, A. C., and HENING, J. C. The influence of citric acid upon titratable acidity and hydrogen-ion concentration of frozen desserts 365
Dairy technology, The application of X-rays to research in 587
DEVEREUX, E. D., and MALLMANN, W. L. Studies of the technic to evaluate the efficiency of several chlorine sterilizers for dairy use 351
Digestive tract of the bovine, Rate of passage of inert materials through the 297
DORCAS, M. J. (See Supplee, G. C.) 433, 527, 607
Dry milk for ice cream 103
Dry milk, Iodine content 15
Dry milk, The iodine content of milk as affected by feeding iodized 771

Dry skim milk, Standards and methods of analysis of 419
DUNCAN, C. W., and HUFFMAN, C. F. The effect of daily massive doses of viosterol upon calcium and phosphorus metabolism and blood calcium and inorganic phosphorus in calves 83
DUNCAN, C. W. (See Lamb, L. W.) 233
DUTCHER, R. ADAMS, GUERRANT, N. B., and MCKELVEY, J. G. Vitamin Studies: The effect of various methods of pasteurization on the vitamin B and vitamin G content of cow's milk 455

ELTING, E. C., and LAMASTER, J. P. A plan and preliminary results of a permanent pasture grazing test 425
ELVEHJEM, C. A., HART, E. B., JACKSON, H. C., and WECKEL, K. G. The nutritional value of milks—raw *vs.* pasteurized and summer *vs.* winter 763
Escherichia-Aerobacter group in butter, The detection of the 11
Escherichia Coli in mastitis, with accompanying changes in milk composition 799

FAT content and time of exposure on the antirachitic potency, The influence of 483
Fat, Factors influencing the initial induction period in the oxidation of milk 321
Fat globules in cream and their relation to churning, Substances adsorbed on the 29
Fat on the blood lipids of lactating goats, The effect of specific dietary 223
Fat percentage of milk as affected by feeding fats to dairy cows, The 379
Fat rising in cream 675
Feeding cows, effect on water consumption 265
Feeding fats to dairy cows, The fat percentage of milk as affected by 379
Feeding iodized dry milk, The iodine content of milk as affected by 771
Feeding roughages 1, 233, 409, 425, 671, 733
Feeding trials 297
Feeding value of artificially dried pasture herbage for milk production, The 409
Fertilization results, Pasture 733
FITCH, J. B., and WOLBERG, F. B. The utilization of Atlas and Kansas Sorgo seed by dairy cows 343
FLANIGAN, G. E. (See Ansbacher, S.) 723
FLETCHER, J. L. (See Lush, R. H.) 733
Fluorine content of the organs and tissues of dairy cows, The effect of feeding raw rock phosphate on the 695
Foam producing substances of milk, Certain 723
FOLGER, A. (See Henderson, J. L.) 475
Food value of milk 763, 771
15, 19, 433, 455, 483, 489, 527, 607, 685
Freshening ages of purebred cows in Iowa cow testing Associations 625

GESTATION period, and sex ratio of Alaskan hybrid Holstein-Galloway calves, Birth-weight 709
GIFFORD, WARREN. The butterfat records of cows possessing supernumeraries compared with cows having the normal number of teats 571
GIFFORD, WARREN. The occurrence of Polythelia in dairy cattle 559
GOLDING, N. S. The growth of Penicillium roqueforti in synthetic media 61
GRAVES, R. R. Proceedings of the 29th annual meeting of the American Dairy Science Association 675
GRIMES, M. The detection of Escherichia-Aerobacter group in butter 11
GUERRANT, N. B. (See Dutcher, R. Adams) 455

HAMMER, B. W. (See Olson, H. C.) 613
Hand stripping after machine milking, The value of 331
HANFORD, Z. M., SUPPLEE, G. C., and REMINGTON, ROE E. Studies on the iodine content of milk 15
HANFORD, Z. M., SUPPLEE, G. C., and WILSON, L. T. The iodine content

of milks affected by feeding iodized dry milk 771
HANSEN, H. C. (See Theophilus, D. R.) 519
HANSEN, H. C., THEOPHILUS, D. R., and ATKESON, F. W., and GILDOW, E. M. Influence of mastitis on the curd tension of milk 257
Hardening of ice cream, A study of factors related to the 47
HARRIS, G. M., LUSH, JAY L., and SHULTZ, C. N. Progress report on comparison of lactation and yearly records 737
HART, E. B. (See Chang, Chang Y.) 695
HART, E. B. (See Elvehjem, C. A.) 763
HENDERSON, J. L., ROADHOUSE, C. L., and FOLGER, A. The effect of heat and chemical sterilization on the rubber parts of milking machines 475
HENDERSON, J. L., and ROADHOUSE, C. L. Factors influencing the initial induction period in the oxidation of milk 321
HENDERSON, J. L. (See Smith, F. R.) 799
HENING, J. C. (See Dahlberg, A. C.) 365
HERRINGTON, B. L. Some physico-chemical properties of lactose. I. The spontaneous crystallization of supersaturated solutions of lactose .. 501
HERRINGTON, B. L. Some physico-chemical properties of lactose. II. Factors influencing the crystalline habit of lactose 533
HERRINGTON, B. L. Some physico-chemical properties of lactose. III. The aqueous vapor tension of alpha hydrate-anhydride systems. The preparation of alpha anhydride 595
HERRINGTON, B. L. Some physico-chemical properties of lactose. IV. The influence of salts and acids upon the mutarotation velocity of lactose 659
HERRINGTON, B. L. Some physico-chemical properties of lactose. V. The influence of other substances upon the equilibrium rotation of lactose 701
HERRINGTON, B. L. Some physico-chemical properties of lactose. VI. The solubility of lactose in salt solutions; The isolation of a compound of lactose and calcium chloride 805
HILL, O. J. (See Coulter, S. T.) 543
HODGE, H. M. (See Sherman, J. M.) 497
HODGSON, R. E. (See Knott, J. C.) 409
Homogenization on the curd tension of milk, Influence of 519
HUFFMAN, C. F. (See Duncan, C. W.) 83
HUFFMAN, C. G. (See Lamb, L. W.) 233
Hydrogen-ion concentration, titratable acidity, and quality in cheddar cheese, A study of the relationship between 33

ICE cream, A study of factors related to the hardening of 47
Ice cream, acidity of 365
Ice cream, high solids 781
Ice cream, The manufacture of low-lactose skim milk for use in 103
Iodine content of milk 15, 19
Iodine content of milk as affected by feeding iodized dry milk, The 771
Iodine number of the butterfat, The relation between the hardness of butter and butterfat and the 543
Irradiated ergosterol and irradiated yeast for the production of vitamin D-milk, The relative efficiencies of 685
Irradiated milk 433, 483, 527, 607
Irradiated yeast and irradiated ergosterol in the production of vitamin-D milk, The relative value of 445

JACKSON, H. C. (See Elvehjem, C. A.) 763
JOHNSON, A. H. (See Thompson, E. C.) 419
